**Dear Physician:**

The medical malpractice insurance marketplace is seeing substantial competition once again, which is good for you. If you have not “shopped” your coverage for many years, you might be surprised how much you can reduce your malpractice premium cost. The Physicians Advocate merged this year with Acrisure, the 12<sup>th</sup> largest national brokerage and have added a host of new insurers and products to our portfolio. For you that means we have that many more choices and create a most competitive environment to keep your cost down.

Please provide responses to the few questions below and we'll provide you with a market comparison to give you an idea if there may be a better option available to you than what you might currently have for your malpractice coverage.

*Our analysis will be more precise if you can also provide a copy of your Policy Declaration page or Certificate of Insurance*
